No. 144.—The following notifications of the Government of India are republished:—

DEPARTMENT OF EDUCATION HEALTH AND LAND

FORESTS.

Simla, the 2nd May 1928.

A competitive examination for admission to the Indian Forest Service will be held at Delhi beginning on Monday, the 20th August 1928, under rules which have been framed by the Secretary of State for India in Council and which are printed at pages 457 to 462 of this Gazette.* Candidates accepted for admission to the examination will be informed at what place in Delhi and at what hour they should present themselves.

1. The number of candidates to be selected at this examination will be announced hereafter. The number of appointments which will be announced for competition will not represent the total number of vacancies to be filled in India since certain vacancies will be reserved and will be filled, if necessary, by nomination for the purpose of adjusting communal inequalities which may arise from the result of the examination.

2. No candidate will be admitted to the examination from whom the Authority mentioned below has

* The *Gazette of India*, dated 5th May 1928.

not received on or before the 16th June 1928, an application on the prescribed form accompanied by the necessary documents. Copies of the application form may be obtained from that Authority.

3. The application must be made to the proper Authority for the area in which the candidate's parents reside at the time of the application, or of an area in which they have previously resided for a period of not less than three years, or in which he has himself resided, otherwise than as a student at a University only, for a like period.

The proper Authority is for a Governor's Province, the Chief Secretary; for Coorg, the North-West Frontier Province, Delhi, Ajmer-Merwara, Baluchistan or Andaman and Nicobar Islands, the Chief Commissioner; and for a State in India, the Political Officer or Agent, who should be addressed through the Darbar.

4. No allegation that an application Form or letter respecting such form has been lost or delayed in the post will be considered unless the person making such allegation produces a Post Office certificate of posting. Candidates who delay their applications until a late date will do so at their own risk.

NOTE.—With reference to the note to Rule 9 the Governor-General in Council has, with the approval of the Secretary of State for India in Council, relaxed the condition imposed by that rule so as to admit to this examination the following four classes of Indian students who have undergone at their own expense a course of Forestry outside India and have thereby been prevented from entering for the examination in India for admission to the Indian Forest Service:—

(a) Those who were not debarred by age from appearing at the competitive examination in 1926, i.e., were under 23 then, but were too old to appear at the examination in 1927 by reason of being over 23 on the 1st April 1927.

(b) Those who had obtained a degree or diploma in Forestry and were under 25 years of age on the 30th June 1926.

(c) Those who were qualified to take the examination in 1927, but did not do so, perhaps on account of short notice, and are over age this year.

(d) Those who, having obtained a diploma or degree in Forestry, were under 25 on the 30th June 1927.

These concessions will not operate to allow any of the candidates in question who has appeared once at the examination to appear a second time and are confined to Indian students who were undergoing forestry training outside India in 1926 or 1927.

No. 692.—In exercise of the powers conferred by sub-section (2) of section 96-B of the Government of India Act, the Secretary of State for India in Council has made the following rules to regulate recruitment for the Indian Forest Service:—

PART I.—METHODS OF RECRUITMENT.

1. These rules may be called the Indian Forest Service (Recruitment) Rules, 1928. They supersede all previous rules or orders prescribing methods of recruitment to the Indian Forest Service.

2. The Indian Forest Service shall be recruited by the following methods:—

(a) by nomination in England in accordance with Part II of these rules and such supplementary regulations as may be prescribed by the Secretary of State in Council;

(b) by competitive examination in India in accordance with Part III of these rules and such supplementary regulations as may be prescribed by the Governor General in Council;

(c) by direct appointment in accordance with Part IV of these rules of persons selected in India otherwise than by competitive examination;

(d) by the promotion in accordance with Part V of these rules on the recommendation of local Governments of members of the Provincial Forest Services;

(e) by the transfer or promotion in accordance with Part VI of these rules of an officer belonging to a branch of Government Service in India other than a Provincial Forest Service.

3. (1) All appointments to the Indian Forest Service shall be made by the Secretary of State for India in Council.

(2) No appointment shall be made to the Indian Forest Service by any method not specified in rule 2.

(3) Subject to the provisions of sub-rule (2) the method or methods of recruitment to be employed for the purpose of filling any particular vacancies in the Indian Forest Service or such vacancies therein as may be required to be filled during any particular period, and the number of candidates to be recruited by each method, shall be determined by the Secretary of State in Council.

PART II.—APPOINTMENT BY NOMINATION IN ENGLAND.

4. Candidates shall have attained the age of 21 and shall not have attained the age of 24 on the 1st January of the year of candidature. They shall be unmarried, and if they marry before reaching India, shall forfeit their appointments.

5. No person shall be deemed eligible for appointment who is not a male and who does not satisfy the Secretary of State for India in Council—

(a) that his character is such as to qualify him for employment in the Indian Forest Service;

(b) that he is a British subject of non-Indian domicile;

(c) that if he (being a British subject of non-Indian domicile) or his father or his mother was not born within His Majesty's dominions and allegiance, then at the time of his birth his father was a British subject and still is, or continued to be until his death, a British subject.

PART III.—APPOINTMENT BY COMPETITIVE EXAMINATION IN INDIA.

6. A candidate must be a male and either—

(i) a British subject of Indian domicile who was, and whose father and mother were, born within His Majesty's dominions and allegiance, or

(ii) a British subject of Indian domicile whose father was at the time of the candidate's birth and still is (or, if dead, continued until his death to be) a British subject or a subject of a State in India, or

(iii) a ruler or a subject of a State in India in respect of whom the Governor-General in Council has made a declaration under section 96-A of the Government of India Act.

7. A candidate must be in good mental and bodily health and free from any physical defect likely to interfere with the efficient performance of the duties of a member of the Indian Forest Service, and a candidate who is found after examination by a Medical Board not to satisfy these requirements will not be appointed.

8. A candidate must satisfy the Public Service Commission that his character is such as to qualify him for employment in the Indian Forest Service.

9. A candidate must have attained the age of 19 and not have attained the age of 23 on the 1st day of April in the year in which he is accepted for admission to the competitive examination.

NOTE.—The Governor-General in Council may, with the approval of the Secretary of State for India in Council, relax this condition in special cases in respect of the competitive examinations to be held in 1928 and 1929.

10. A candidate must have passed the examination necessary to qualify him for the degree of a University approved by the Governor-General in

Council or the Senior Diploma of the Mayo College, Ajmer. In exceptional cases the Public Service Commission may treat, as qualified under this rule, a candidate who, though not possessing the foregoing qualifications, has passed examinations conducted by other institutions of a standard which in the opinion of the Public Service Commission justifies their admission.

11. The competitive examination shall be conducted in accordance with regulations made by the Governor-General in Council, and such fees may be charged to candidates as may be prescribed in those regulations.

12. A list of the candidates shall be made in order of their proficiency as disclosed by the aggregate marks finally awarded to each candidate, and in that order so many candidates up to the determined number of appointments as are found by the Public Service Commission to be qualified by examination shall be designated to be selected candidates for the Indian Forest Service, provided that the Governor-General in Council is satisfied that they are duly qualified in other respects. Should any selected candidate become disqualified, the candidate next in order of merit and in other respects duly qualified shall be deemed to be a selected candidate.

13. The selected candidates will be required to undergo satisfactorily a course of training at the Forest College, Dehra Dun, in accordance with such regulations as the Governor-General in Council may prescribe.

PART IV.—APPOINTMENT BY SELECTION IN INDIA OTHERWISE THAN BY COMPETITIVE EXAMINATION.

14. The Governor-General in Council shall call on the Public Service Commission to recommend and arrange in order of preference such number of candidates as he may direct to be selected with regard to the community to which they belong or to such other considerations as he may prescribe.

15. The candidates so recommended shall possess the qualifications specified in rules 6, 7 and 8 and the recommendations shall be made primarily from the list of candidates who have sat at the last preceding competitive examination held in India for the Indian Forest Service, and have attained a qualifying standard. Candidates may, however, also be recommended whose names are not included in that list and the Public Service Commission may, if they consider it necessary, call for fresh names in such numbers and from such local Governments as the Governor-General in Council may direct.

16. The Governor-General in Council shall forward to the Secretary of State for India in Council the recommendations made by the Public Service Commission and shall propose candidates for appointment as selected candidates.

17. The selected candidates will ordinarily be required to undergo satisfactorily a course of training at the Forest College, Dehra Dun, as laid down in rule 13.

PART V.—APPOINTMENT BY PROMOTION FROM THE PROVINCIAL FOREST SERVICES.

18. Where recruitment is to be made by promotion from the Provincial Forest Services it shall be made in accordance with rule 8 of the Public Service Commission (Functions) Rules, 1926, or any variation thereof for the time being in force.

PART VI.—APPOINTMENT BY TRANSFER OR PROMOTION FROM A SERVICE OTHER THAN A PROVINCIAL FOREST SERVICE.

19. The Secretary of State for India in Council may in special cases and on the recommendation of the Governor-General in Council, made after consulting the Public Service Commission, transfer or promote an officer belonging to a branch of Government service in India (other than the Provincial Forest Service) to the Indian Forest Service.

Note.—Nothing in the above rules applies to recruitment for the Indian Forest Service in Bombay and Burma, since recruitment to the Service in those provinces has been discontinued.

No. 709.—Whereas the Narasannapeta Union Board in the Ganjam district is, in the opinion of the Government, incompetent to perform the duties imposed upon it by law, the Government direct, under sub-section (1) of section 45 of the Madras Local Boards Act, 1920, that the union board be dissolved and reconstituted.

(*G.O. Mis. No.* 2131, *L. & M.*).

No. 710.—The Board of Commissioners for Hindu Religious Endowments brings to the notice of Government that the temple of Sri Pandeswaraswamyvaru at Kalingapatnam, Narasannapet taluk, Ganjam district, the annual income of which is less than Rs. 250 and which is thus outside the scope of the Madras Hindu Religious Endowments Act, 1926, is closed to worship. The archaka appointed by the trustee is prevented from doing daily worship by the villagers who are not in good terms with the trustee. The temple is also badly in need of repairs. In the circumstances the Board considers it necessary to settle a scheme of administration therefor and recommends that all the provisions of the Act except section 68 (1) relating to the levy of contribution towards the expenses of the Board may be applied to it. Before issuing a notification under the proviso to section 4 of the Act as suggested by the Board, the Government desire to ascertain whether the trustee of or any worshipper at the temple has any objection to urge against such application. If no objection is received by Government within a month from the date of publication of the notification, the Government will proceed to issue a notification extending all the provisions of the Act except section 69 (1) to the said temple.

No. 711.—The Board of Commissioners for Hindu Religious Endowments brings to the notice of Government that the temple of Sri Peta Sankaramma at Hospet, Hospet taluk, Bellary district, the annual income of which is less than Rs. 250 and which is thus outside the scope of the Hindu Religious Endowments Act, 1926, is not well managed. It is reported that the temple had for over thirty years a surplus of Rs. 300 to Rs. 400, which was mixed up by the managers with their private accounts, instead of being invested and

earning interest and that the present manager wishes to continue this arrangement and is not prepared to take steps against the past managers. In the circumstances, the Board considers it necessary to apply to the temple all the provisions of the Madras Hindu Religious Endowments Act, 1926, except section 39 (1) relating to the levy of contribution by the Board so that directions may be issued for the investment of funds and steps may be taken in respect of the loss sustained by the temple owing to the neglect of the managers in the past. Before issuing a notification under the proviso to section 4 of the Act as suggested by the Board, the Government desire to know whether the trustee of or any worshipper at the temple has any objection to urge against such application. If no objection is received by the Government within a month from the date of publication of the notification in the District Gazette, the Government will proceed to issue a notification applying all the provisions of the Act except section 39 (1) to the said temple.

TENDER NOTICE FOR SCHEDULE CONTRACT FOR COLLECTING AND SUPPLYING HARD GRANITE METAL, CONSOLIDATION, ETC., FOR ORDINARY MAINTENANCE OF POLLACHI-VANNANTHORAI ROAD FOR 1928-29.

SEALED tenders will be received by the undersigned at his office up to 2 o'clock on the 31st May 1928 for the above work.

2. Tenders should be addressed to the Executive Engineer, Coimbatore Division, Coimbatore, and should be superscribed "Tender for supplying and collecting hard granite metal consolidation, etc., for ordinary maintenance of Pollachi-Vannanthorai road."

3. Each tender should be accompanied by an earnest money of Rs. 100 in cash or Madras currency notes which will be returned to the tenderers whose tenders are not accepted.

4. The Executive Engineer will reserve to himself the right of rejecting all or any of the tenders without assigning any reason for so doing.

5. As soon as the acceptance of the tender is notified, the successful tenderer will be required to deposit a further sum of Rs. 100 which, with the earnest money received, will be held as security for the due fulfilment of the contract.

6. The successful tenderer will also be required to sign an agreement in the schedule contract form for the due fulfilment of the contract.

7. Failure to comply with conditions 5 and 6 above will entail forfeiture of the earnest money.

8. The contract must not be sublet without the written permission of the Executive Engineer. In the event of the contractor subletting his contract without such permission, he shall be considered to have thereby committed a breach of contract, and shall forfeit his security deposit, and shall have no claim for any compensation for any loss that may accrue from the materials he may have collected or engagements entered into.

9. In the event of a tender being submitted by a firm, it must be signed separately and severally by each member thereof or, in the event of absence of any partner, it must be signed on his behalf by a person holding power-of-attorney authorizing him to do so.

10. No alterations which are made by the tenderer in the tender will be recognized, and, if corrections are made, his tender will be liable to rejection.

11. Any tender not received in order and according to instructions given in due time will not be considered.

12. (*a*) The metal shall be of good granite of close, tough durable and hard texture, giving a clean fracture, to pass through a ring of 2½" diameter in all directions no dimension, being less than two-thirds the longest dimension, the metal to be of good shape and free from dirt or quarry rubbish. All metal shall be stacked on platforms beyond roadside drains. Where platforms do not exist, they shall be made by the contractor for which payment will be made.

(*b*) The tendered rate per unit shall include all charges such as for quarrying, breaking metal to the required size, carting and stacking metal to standard section beyond roadside drains at such places and in such quantities for different furlongs as the Executive Engineer or his subordinates may furnish in writing. No variation of these quantities shall vitiate the contract. Metal stacked within the limit of the metalled portion of the road will be confiscated to Government. A fine of Rs. 100 will be inflicted for any metal dumped on the roadside and allowed to remain there obstructing traffic for a period exceeding 12 hours.

13. For stacking and measuring metal departmental templates shall be used and as against the

actual stack height of 1' 8½" only 1" 6", or the proportionate height as the case may be, shall be reckoned for measurement or payment in order to make allowance for voids. The heaps in a mile should be of uniform measurements.

14. The contractor shall arrange his own explosives. If he needs departmental supply, the contractor shall give notice to the Subdivisional Officer, Pollachi, sufficiently early in advance of his requirements. Any delay in such supply shall not however vitiate the contract and the Executive Engineer takes no responsibility for such delay.

15. The contractor shall make his own arrangements with the owners of quarries, but where Government quarries exist he will be allowed to quarry metal free of seigniorage charges provided that permission to quarry on approval of the quarry is obtained in writing in advance from the Subdivisional Officer, or the section offices in charge of the road. No extra charge will be given for quarrying metal from private quarries.

16. The collection of metal should be completed before 15th July 1928.

17. The contractor shall deliver the materials on or before the dates mentioned in paragraph 16, failing which he shall be subject to pay a fine of Rs. 50 per week till they are made up. Part payment for collection of metal will be made only after collection for a reach of one mile is completed and stacked on platforms.

18. In every case in which the payment of fine mentioned in clause 17 shall have been incurred for three consecutive weeks the Executive Engineer shall have the power either to annul the contract altogether or to have the supply completed without further notice at the contractor's risk and expense as he may deem best suited to the interest of Government and the contractor shall have no claim to compensation for any loss that he may incur in any way.

19. If the contractor shall be hindered in the supply of materials so as to necessitate an extension of the time allowed in this tender, he shall apply in writing *to the Executive Engineer* one week in advance and, if reasonable grounds be shown for it, an extension will be given in writing by the Executive Engineer, and without such written authority of the Executive Engineer the contractor shall have no claim to exemption from the fine leviable under clause 17 above.

20. The contractor shall give notice to the Executive Engineer or his assistant of his intention of making delivery of metal collected and, on the metal being approved, a receipt shall be granted to him by the Executive Engineer or Hisassistant and no metal will be considered as delivered until so approved. He may send in his own measurements or bills to the section officer, which measurements will be checked by the section officer or subdivisional officer before payment.

21. On the completion of the delivery of the material the contractor shall be furnished a certificate to that effect, but the delivery will not be considered complete until the contractor shall have removed all rejected metal and shall have the approved metal stacked or placed in such positions as may be pointed out to him.

22. The metal shall be of the best description and in strict accordance with the specification and the contractor shall receive payment for such metal only as is approved and passed by the Executive Engineer or his Assistant Engineer.

23. In the event of the metal being considered by the Executive Engineer to be inferior to that described in the specification, the contractor shall, on demand in writing, forthwith remove the same at his own charge and cost and in the event of his neglecting to do so within such period as may be named by the Executive Engineer or his assistant, that officer may have such rejected metal removed at the contractor's risk and expense, the expense incurred being liable to be deducted from any sums due or which may become due to the contractor.

24. If the contractor or his workpeople break or deface any building, road fence, enclosure or grass land or cultivated land he shall make good the same at his own expense and, in the event of his refusing or failing to do so, the damage shall be repaired at his expense by the Executive Engineer who shall deduct the cost from any sums due or become due to the contractor.

25. The contractor shall supply at his own expense all tools, plant and implements required for the due fulfilment of his contract and the metal shall remain at his risk till the date of final delivery unless it shall have been in the meantime removed for use by the Executive Engineer or his assistant.

26. The decision of the Superintending Engineer, Coimbatore Circle, for the time being shall be final, binding and conclusive on all questions relating to the meaning of the specification.

Consolidation will be done with a 12-ton steam roller.

27. After the whole quantity of metal has been collected, measured and passed, consolidation must be arranged for and get on with as early as possible and completed to the satisfaction of the Executive Engineer or his representative. Payment for this item of work will be made not more frequently than twice monthly and only for completed miles of work. The inspecting officers will have the right to reject any reach for defective consolidation.

28. After consolidation being passed, the successful tenderer will be required to maintain the road in a satisfactory condition for the remaining portion of the year, he being paid for this purpose a sum every month per mile of satisfactorily maintained road. This sum is to be tendered by the contractor as a part of the tender.

29. A 12-ton steam road roller available at Pollachi will be lent to the contractor for consolidation of metal on the following conditions :—

(a) Hire for the roller shall be borne by the contractor at Rs 380 per mensem to be deducted from his bills.

(b) In addition to the hire, the following charges shall also be borne by the contractor :—

10. *Engineering Harbour works.*—The Harbour Dipper dredger "St. George" continued the dredging of the Turning Basin from the first or centre cut in a north-south direction, and made five successive cuts for the current year in this direction for a length of about 1,000 feet. At the extremities of each cut the dredger was turned in a westerly course, and dredged towards the west bank of the Turning Basin keeping parallel to the south bank.

Throughout the dredged portion, the depth made varies between 21 and 23 feet below low water, and for an average width of 270 feet. Ballasted embankments were made to carry the railway track and the dredged spoil was loaded into trucks and deposited into the reclamation allotment to the west of the Turning Basin. The spoil was similarly deposited on the protective embankment running south-west towards the mainland.

The western reclamation has been raised to a height of 8·43 above low water, and covers a completed area of about 11¼ acres. The protective embankment between Hare Island and the mainland which crosses Krangutivu Island was raised to a height of 7 feet above low water. In May, the embankment was advanced over Devil's Pass to about 500 feet beyond Krangutivu Island, the height of the banking varying between 7 and 5 feet above low water.

The protective embankment proper on the mainland was commenced in June and completed during the current year. It is revetted with coral slabs and contains seven storm water culverts and is raised to a height of 7 feet above low water, extending westwards approximately parallel to the shore line, for a distance of 7,200 feet or thereby, between Devil's Pass and Salt Bay.

In preparation for construction the environs of the Dry Dock were reclaimed to a height of 4½ feet above low water. The necessary temporary service buildings were erected, and the collection of concrete and building materials from rock dredged by the "St. George" was started. The sheet piles arrived and the requisite plant for driving them to enclose the site, was prepared before the close of the year.

The Distilling Plant has been delivered and preparations are being pushed forward to put it in operation

The "St. George" was away for docking and overhaul at Cochin for one month during October.

The Admiralty Bucket dredger "St. David" is still located at Cochin.

The quarters for the Assistant Executive Engineers, loco. sheds, fitters' shop and offices and auxiliary buildings to the Executive Engineer's office and quarters are all completed. An extension to the fitters' shop including a moulding shop may be necessary as the works progress.

11. *Dredging an approach channel by H. D. "Manar".*—This work was continued and at the end of October a channel was dredged in a westerly direction 3,050 feet or thereby from the jetties. The depth made was 9½ feet below low water or thereby and the width of the dredged portion was 250 feet.

The "Manar" was away for docking and overhaul at Cochin from the end of September and did not return before the end of the current year.

12. *Constructing an approach road to Upper Odai Bridge.*—This road was commenced in November and practically completed before the end of the current year. Work was delayed a little by rainstorms and the spongy nature of the ground encountered. The road was carried from the existing one at a point opposite Manura House for a distance of 2,430 feet to the Upper Odai Bridge, and advanced beyond the bridge for a distance of 570 feet. Two-thirds of the road is bank raised to a height of about 3 feet above ground level, the remainder being in cutting. The width of the carriage way is 18 feet throughout.

13. *By-laws.*—The by-law framed by the Board under sub-sections (5), (9) and (10) of sections 101 and 103 of the Tuticorin Port Trust Act, 1924 (II of 1924), regarding the prohibition of grazing of cattle in the Harbour area was notified in the Fort St. George and Tinnevelly District Gazettes under the provisions of section 102 of the Act and approved by the local Government in G.O. Mis. No. 517, Finance (Marine), dated 22nd September 1926.

14. *Management.*—During the year under report the Board consisted of Trustees whose names are given on the outer cover of the report. The number of ordinary meetings held during the year was 12 and of special meetings, 6.

The post of Secretary and Traffic Manager was held by Commander [A. E. Godfrey, R.N.R. (Retired), till 27th March 1927 and by Commander R. Severs, R.D., R.N.R. (Retired), during the remainder of the year.

Tuticorin, 6th October 1927.

Chairman, Port Trust.

Memorandum No. 31400-4, *Finance* (*Marine*), *dated 22nd October* 1927.

The administration report indicates a fall under the following heads in 1926–27 as compared with the corresponding figures for 1925–26 :—

Items	1925–26.	1926–27.	Decrease.
1. Receipts in lakhs of rupees excluding loans	4·10	3·27	— 0·83

5. Total value of trade in lakhs of rupees	1,367 61	1,008 53	— 359 08

The Chairman, Tuticorin Port Trust, is requested to furnish, if available, detailed reasons for the fall under the different heads

G. T. BOAG,
Secretary to Government.

Letter from D. H. BOULTON, Esq., I.C.S., Chairman, Tuticorin Port Trust, to the Secretary to Government, Finance (Marine) Department, dated Tuticorin, 4th November 1927, No. 2/1200.

In reply to your Memorandum No. 31400-4, dated 22nd October 1927, I have the honour to furnish the reasons for the various decreases mentioned in your memorandum

1. *Decrease of Rs* 0 83 *lakh*—This is due to—

(*a*) A decrease of Rs. 0·27 lakh in receipts under Imports This is attributed to—

(i) A reduced demand for imported grains

(ii) Smaller imports of machinery and coal from Europe, which was probably caused by the coal strike disorganizing the various markets.

(*b*) A decrease of Rs. 0·20 lakh in receipts under Exports for which the comparative failure of the cotton crop in this district was responsible. The decrease under cotton was actually Rs. 1·23 lakhs, but a general increase in other items reduced the deficiency to Rs. 0 20 lakh as above stated.

(*c*) A decrease of ground and shed rents of Rs. 0·07 lakh due to—

(i) Removal of grains and other cargo within the free period

(ii) The large areas taken in normal years for stacking cotton bales before shipment were not required for the reasons given in (*b*).

(*d*) A decrease of Rs. 0·28 lakh under 'Miscellaneous.' This is accounted for by the credits for repairs and renewals to the dredger *Manar* being shown as receipts in 1925–26 and as less charges in 1926–27.

2. The decrease (154) is made up by ten steamers and the remainder coastal sailing vessels.

3. The decrease, 0 14 lakh ton, is due to a smaller number of foreign trade steamers calling at the port during the year under review.

4. The decrease, 0·59 lakh ton, is due to the reasons given above in item 1 (*a*) *and* (*b*).

5. The figures given are those supplied by the Customs department. The decrease is due to the reasons given in items 1 and 2 above, and may also be affected by fluctuations in market values.

Letter from J. C. Nixon, Esq., I.C.S., Accountant-General, Madras, to Secretary to Government, Finance (Marine) Department, dated Fort St. George, 21st December 1927, No. T.H. 1820.

With reference to section 86 of the Tuticorin Port Trust Act, 1924, I have the honour to forward herewith the audit report on the works expenditure of the Tuticorin Port Trust for the year 1926–27.

ENCLOSURE

Audit Report on the works expenditure of the Tuticorin Port Trust for the year 1926–27.

Capital expenditure financed from loan funds.—Out of a loan of Rs. 6 lakhs taken during the year 1926–27 at 5½ per cent interest a sum of Rs. 5,59,175 was actually spent on capital works under the following heads:—

	Rs.
Works	2,86,530
Establishment	50,753
Tools and Plant	69,990
Suspense	1,51,893
Total ..	5,59,175

2. Schedule A shows the actual expenditure on the original budget allotment and revised appropriation for each work. It also compares the total expenditure incurred on each work to end of 1926–27 against the amount of the sanctioned estimate for each.

3. (*a*) The actuals during the year exceeded the final appropriation by Rs. 47,435. This excess is the net result of an excess of Rs. 1,58,262 on six works and of savings of Rs. 1,10,827 on 26 items. The reasons for the more important savings are given below:—

Serial number, item number and description of work	Savings.	Reasons.
	Rs	
1. 30. Distilling plant ..	44,012	Due to the adjustment of the cost of the 'Distilling Plant' not having been decided on before the close of the year.
2. 30. (*a*) Construction of a dry dock at Hare Island.	53,515	Stated by the Executive Engineer as due to the non-receipt of sheet piles and cement ordered from England. It is not however explained whether information about the delay in supply was not available in time to enable the Executive Engineer to surrender a portion of the allotment.
3. 31. Staff for six years at 12½ per cent.	11,405	Due to certain overheads being charged for at lower rates than was assumed when original appropriation was provided. Here again the orders fixing the reduced rates issued in November 1926 and it is not clear why surrenders were not offered during the next four months.
4. 33. One per cent for audit on all items except item 31 in the scheme estimate.	506	

(*b*) The Executive Engineer's explanation for the more important excesses and the comments by this office are furnished below:—

Serial number, item number in the statement and description of work	Excesses.	Reasons given by the Executive Engineer.	Comments by this office.
	Rs.		
1. 1. Dredging in approach channel partly by "St. David" and partly by "St George" and depositing at sea.	2,445	Due to the debit of the cost of the propeller advised by the Accountant-General from time to time.	....

Serial number, item number in the statement and description of work.	Excesses.	Reasons given by the Executive Engineer.	Comments by this office
	Rs.		
2. 5 & 6. Dredging in berths boat channel at Tuning basin by 'St. George," all materials including coral and rock and depositing in the reclamation.	3,378	Due to the adjustment of charges on account of the voyage of "Mannar."	There was an unexpected credit of Rs 13,016 as also an unanticipated debit of Rs. 7,466 in connexion with "Mannar" which was decided on by Government after the close of the financial year in G.O. Mis. No 268, Finance, dated 8th May 1927, and therefore adjusted in the supplemental accounts of the year. There would thus be a net unanticipated credit of Rs 5,550 on this head while on the work as a whole there has been an excess of Rs. 3,378. This suggests that there has been an excess of nearly Rs. 9,000 due to other causes which have not been explained by the Executive Engineer.
3 20. Five per cent contingencies and 2½ per cent petty supervision.	553	Due to the adjustment of the cost of passages paid to Mr. Abram's family which was not anticipated to be booked against this item originally.	...
4. 22. Dipper dredger "St. George," delivery and erection.	18,055	Due to late receipt of advice of debit for Rs. 18,485 being final instalment of the cost of "Dipper" dredger.	The Executive Engineer refers to advices of adjustment in this office which have necessarily to issue two or three months after the High Commissioner has sent his remittance account. In such cases it is usual for the executive to obtain information of probable cost direct from the Stores Department, London, and provide for the necessary appropriation of funds in India in time.
5. Suspense	1,35,893	Due to the transfer of surplus coal from works to stock and other items debited by the Accountant-General in March 1927 III supplemental accounts.	Mistake in accounting corrected in the supplemental accounts of March 1927.

4. *Revenue account*.—Schedule B summarizes the revenue account while Schedule C exhibits details of actual expenditure charged to revenue account under several works and compares the outlay with the original and revised appropriations.

5. The revenue realized during the year was Rs. 2,025 against Rs 1,962 in the previous year. The increase in revenue is due to rents realized from certain buildings constructed for the residence of the Executive Engineer and his staff by March 1926. There would have been a further increase of Rs 750 in the revenue receipts but for the exemption granted in G.O. No. 455, Finance (Marine), dated 1st December 1926, to Mr. R. J. Miller from payment of rent for the period from 22nd October 1926 to 30th June 1927 during which time he officiated as the Executive Engineer.

6. The actual expenditure was less than the revised appropriation by Rs. 83,089. There were large savings under items 1, 3, 10, 12 and 16 while the appropriation provided for items 4 and 5 completely lapsed. The reasons assigned by the Executive Engineer are noted below :—

Serial number, item number and description of work	Savings.	Reasons.
	Rs.	
1. 1. Dredging and Depositing.	5,582	A sum of Rs 3,000 was proposed for surrender by the Executive Engineer and was not accepted by Government. A credit of Rs. 1,650 was given to the work on account of the excess issue of coal. The grab dredger was used for a part of the year in collecting material for 'Uppar odai.'
2 3. Repairs to jetties ..	787	The lapse was unavoidable.
3. 4 & 5. Repairs to, and renewal of, foreshore fencing, Uppar odai ritetting hand.	509 1,560	Works were not started during the year.
4. 10 Dredging in approach channel to screw-pile jetty by dredger "Mannar."	52,016	There was no dredging operation from September 1926 to March 1927 as the "Mannar" was then at Cochin. There was also an unanticipated credit of Rs. 21,670 to this work in March 1927 supplemental accounts being the value of surplus coal found at site and taken to stock.
5. 12 Improvements to foreshore.	2,123	Some items of repairs expected to be finished before the close of the year were not done as the existing works remained in a good state of repair.
6. 16 Centages for establishment and audit.	19,644	Credit of Rs. 9,014 was given in the supplemental accounts of March 1927 and no centage was levied on the total cost of works done by Cochin on behalf of this division. These two causes account for the excessive lapse under this item.

It is for consideration whether the large lapses under items 12 and 16 and the total lapse under items 4 and 5 were such as could not be anticipated at least some three months or so before the end of the year.

7. *Suspense account.*—Details of this account are given below :—

Year.	Stock.	Miscellaneous advances.	Purchase.
	Rs.	Rs.	Rs.
1924–25	2,910	438	..
1925–26	13,697	1,462	..
1926–27	1,41,462	26,152	500

The sanctioned reserve limit of stock was raised from Rs. 25,000 to Rs. 1,40,000 as shown below in G.O. No. 684, Finance (Marine), dated 29th October 1926, and G.O. No. 212, Finance (Marine), dated 1st April 1927 :—

	Rs.
Coal	1,00,000
Stock other than coal	40,000
Total ..	1,40,000

The closing balance of stock articles was verified by the following officers on the dates noted against them :—

Coal	Mr. R. J. Miller, Officiating Executive Engineer.	2nd April 1927.
Stock other than coal.	Mr. R. B Crawford, Mechanical Superintendent.	28th March 1927 and 8th April 1927.

The amount outstanding under the head "Miscellaneous advances" has been adjusted in the accounts for 1927-28.

8. *Tools and plant.*—The stock of articles borne on the tools and plant account at the end of September 1926 was verified by the following officers on the dates noted against them:—

Mr. R. B. Crawford, Mechanical Superintendent.	24th and 25th November 1926; 10th, 12th and 20th February 1927.
Mr. R. J. Miller, Officiating Executive Engineer.	10th and 13th February 1927.

Some shortages were discovered as the result of verification and arrangements were made to recover the cost of the articles found short from the persons responsible for the loss and the sanction of competent authority to the write off of losses which could not be made good.

9. *Materials at site of works.*—Materials worth about Rs. 3,481 were reported to be at site of works at the end of March 1927 and to have been verified by the undermentioned officers on the dates noted.

No differences are reported to have been found.

Name of work.	Value of materials at site.	Name of officer.	Date of verification.

10. *Contractors' balances on works accounts.*—

	Rs.
(i) Amount due from contractors on account of Port Trust materials issued and services rendered.	Nil.
(ii) Amount due to contractors	118

The items are all current.

11. *Outlay held under objection.*—The outlay held under objection and the amounts cleared during the year are given in the statement below:—

Class of objection	Amount objected to.	Amount cleared.	Balance at end of March 1927.
	Rs.	Rs.	Rs.
(i) Want of estimate	5,589	5,589	..
(ii) Excess over estimate	9,947	3,356	6,591
(iii) Want of appropriation ..	26,754	26,392	362
(iv) Excess over appropriation ..	78,881	56,854	22,007
(v) Miscellaneous irregularities ..	4,231	4,231	..

The outstanding objections were brought to the notice of the Harbour Engineer-in-Chief and of Government. Items (iii) and (iv) have since been regularised. As regards item (ii) excess over estimate, the Harbour Engineer-in-Chief states that a revised estimate is under preparation and that this will be submitted to Government for sanction on receipt of the findings of the Committee of Harbour Engineers.

12. *Financial irregularity.*—A case of unprofitable outlay was brought to the notice of Government in this office T.H. No. 411, dated 25th November 1926, and the orders of Government were issued in G.O. No. 2, Finance (Marine), dated 3rd January 1927.

13. *General remarks.*—The accounts of the Executive Engineer, Tuticorin Harbour Works Division, were inspected in September 1927 and they were reported to be fairly satisfactory.

J. C. NIXON,
Accountant-General.

ENCLOSURE

Extract of Resolution No. 23 *of the meeting of the Tuticorin Port Trust Board, held on Thursday the* 12*th January* 1928.

23. Read copy of letter from the Accountant-General No. T.H 1320, dated 21st December 1927 to Government, forwarding the audit report on the works expenditure of the Tuticorin Port Trust for the year 1926–27 and Government Endorsement No. 31400–7, dated 5th January 1928, regarding the same.

Resolved that the Board have no remarks to offer.

Letter from R. C. BRISTOW, Esq., M.INST.C.E., M.I.MECH.E., Harbour Engineer-in-Chief to Government, to the Secretary to Government, Finance (Marine) Department, dated 5th April 1928, No. 586/28–1.

I have the honour to offer the following remarks :—

Paragraph 3 (*a*) *of the report—Item* 2—*Dry Dock*.—A sum of Rs. 20,056 included in the High Commissioner's account for February and March 1927 on account of the cost of sheet piles was not passed on to the division for adjustment in the accounts for 1926–27 but debited by the Accountant-General to 'Miscellaneous Advances' in his III Supplemental Accounts (August 1927). In addition, contrary to expectations, the expenditure on the home supply of cement for the work was not debited in the year's accounts and advice of the delayed delivery was received only after the month of March. It was not possible therefore to have proposed the necessary withdrawal of grant.

Items 3 *and* 4.—To some extent the non-adjustment of the home charges referred to above was responsible for the lapse under these items. The final grant could, however, have been estimated more accurately and instructions have been issued to avoid such lapses in future.

III (*b*)—*Item* 2.—Expenditure on dredging items is influenced by several unknown or indeterminate factors and cannot therefore be estimated precisely. The variations noticed are not of consequence.

Item 4.—The procedure indicated is followed generally but the adjustment, in the present instance, had been made direct in the Port Trust Accounts for 1925–26 and advised for inclusion in the Divisional accounts for 1926–27 only—vide explanatory remark as to the excess on the item in this office No. 2724/27–1, dated 25th August 1927 (G.O. R. No. 83, Marine, dated 22nd September 1927).

Paragraph 4—*Items* 12, 16 *and* 5.—The Executive Engineer has been instructed to estimate his final requirements more accurately in order to prevent such lapses in future.

Item 4.—The Executive Engineer reports that the necessary surrender was proposed by him in his No. 910, dated 28th February 1927, to the Chairman, Port Trust, but that it was not included by the latter officer in his application to Government.

ENCLOSURE

Extract of Resolution No. 23 *of the meeting of the Tuticorin Port Trust Board, held on Thursday the* 12*th January* 1928.

23. Read copy of letter from the Accountant-General No. T H 1328, dated 21st December 1927 to Government, forwarding the audit report on the works expenditure of the Tuticorin Port Trust for the year 1926–27 and Government Endorsement No. 31400-7, dated 5th January 1928, regarding the same.

Resolved that the Board have no remarks to offer.

Letter from R. C. BRISTOW, Esq., M.INST.C.E., M.I.MECH.E., Harbour Engineer-in-Chief to Government, to the Secretary to Government, Finance (Marine) Department, dated 5th April 1928, No. 686/28-1.

I have the honour to offer the following remarks:—

Paragraph 8 (*a*) *of the report—Item* 2—*Dry Dock*.—A sum of Rs 20,056 included in the High Commissioner's account for February and March 1927 on account of the cost of sheet piles was not passed on to the division for adjustment in the accounts for 1926–27 but debited by the Accountant-General to 'Miscellaneous Advances' in his III Supplemental Accounts (August 1927). In addition, contrary to expectations, the expenditure on the home supply of cement for the work was not debited in the year's accounts and advice of the delayed delivery was received only after the month of March. It was not possible therefore to have proposed the necessary withdrawal of grant.

Items 3 *and* 4.—To some extent the non-adjustment of the home charges referred to above was responsible for the lapse under these items. The final grant could, however, have been estimated more accurately and instructions have been issued to avoid such lapses in future.

III (*b*)—*Item* 2.—Expenditure on dredging items is influenced by several unknown or indeterminate factors and cannot therefore be estimated precisely. The variations noticed are not of consequence.

Item 4.—The procedure indicated is followed generally but the adjustment, in the present instance, had been made direct in the Port Trust Accounts for 1925–26 and advised for inclusion in the Divisional accounts for 1926–27 only—vide explanatory remark as to the excess on the item in this office No. 2724/27-1, dated 25th August 1927 (G.O. R. No. 83, Marine, dated 22nd September 1927).

Paragraph 4—*Items* 12, 16 *and* 5.—The Executive Engineer has been instructed to estimate his final requirements more accurately in order to prevent such lapses in future.

Item 4.—The Executive Engineer reports that the necessary surrender was proposed by him in his No. 910, dated 28th February 1927, to the Chairman, Port Trust, but that it was not included by the latter officer in his application to Government.

MADRAS PORT TRUST.
